

GO GREEN- Keep computers out of our landfills.

**COMPUTERS FOR KIDS EXPANDS TO SOUTHERN NEVADA!
1600 COMPUTERS DONATED IN LAS VEGAS LAST YEAR!
GOAL SET: DONATE 3500 COMPUTERS WITHIN 12 MONTHS!
TAX DEDUCTIBLE RECEIPT PROVIDED!**

Microsoft
REGISTERED
Refurbisher

Computers for Kids, Inc. (CFK) (501-C-3) a Non-Profit Organization, proudly announces our new home in Las Vegas, and our first Las Vegas Computer Recycling Event. CFK has donated over 25,000 computers to date. We receive donated computers from individuals and businesses, and then repair or refurbish them for distribution to students. Computer systems that are not able to be refurbished are stripped of working parts for use in other systems or recycled through an R2 recycler.

Go Green while helping the Students of Clark County and Nevada!

**DROP OFF YOUR NO LONGER USED OR NON-WORKING
COMPUTER EQUIPMENT:**

Friday, September 7th from 10am – 2pm

Saturday, September 8th from 10am – 2pm

DIRECTIONS:

**COMPUTERS FOR KIDS IS
LOCATED BETWEEN ARVILLE
AND DECATUR.
WE ARE TWO BLOCKS SOUTH
OF TROPICANA AND THE
ORLEANS HOTEL CASINO ON

HARD DRIVE SANITIZED!

SECURE DATA SANITIZATION, LLC

Did you know: 1 out of 4 DOD wipes fail. New standard for National Institute of Standards and Technology Special Publication 800-88, has change to Secure Erase. SDS is the first and ONLY company in the nation that can mobile erase a hard drive.

SDS is a proud sponsor of CFK

All hard drives will be "Secure Erase" for the Computer Drive

Computers for Kids (CFK) Mission: To offer students in grades K–14, the opportunity to enhance their education through the use of technology at home.

Originally based in Boise, Idaho, *Computers for Kids* has distributed over 25,000 computers and recycled over 1,400 tons of computers, monitors, and computer equipment to date. Donations of computer equipment and software programs for CFK's program are received from individuals, schools, and government agencies. Our donation program helps address the growing problem of older computer systems being discarded to the landfill, or shelved and unused taking up warehouse space. It also provides a tax credit opportunity to the donator.

CFK receives donated computers from individuals and businesses, then repairs and refurbishes them for distribution to students for use in their home. All computer systems are provided as complete packages, ready for use by the recipient. Training sessions are provided if students need instruction on the operation and maintenance of their computer. Free technical support is provided to ensure that the student gets the full benefit of their computers. Student interns from local school programs assist with programming and tech service needs, gaining real-life experience in computer sciences. Computer systems that are not able to be refurbished are stripped of working parts for use in other systems. Any remaining, unusable parts are then recycled through an R2 recycler.

Computers for Kids is closing the "digital divide" by increasing knowledge and skills through use of home computers. This offers individuals in today's society an opportunity to succeed. Our program has key component that provide long lasting beneficial effects to the community and the environment through recycling, reuse, and refurbishing of computer components.

However, our most important mission is to offer Nevada students (K-14th grade) the opportunity to enhance their education through the use of technology at home. This is the *Computers for Kids* program- **a program of education and community service designed to keep today's youth knowledgeable and educated in an electronic world.**

We welcome the opportunity to provide you with more information. Please help us and help Southern Nevada students and the environment.

We welcome your questions.

Sincerely,

Molli Wingert
