

ART BEYOND BORDERS, *PostCards From The World* “My Dream of Peace”

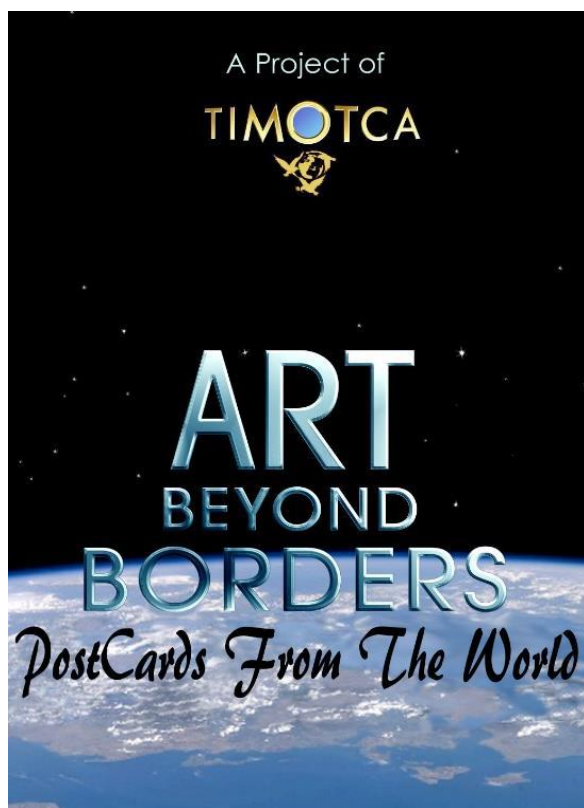

Competition, Exhibitions & Art Exchange

Overview

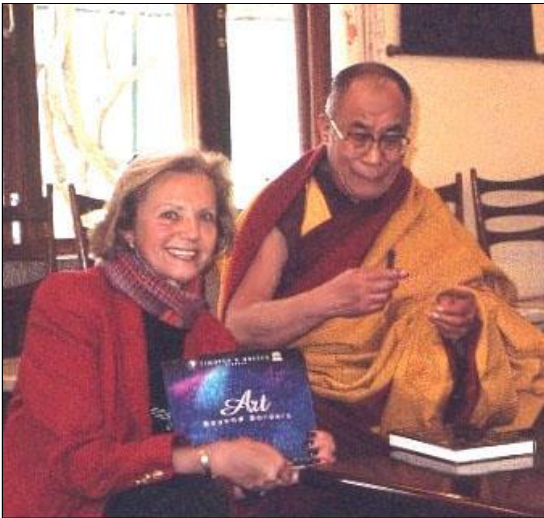

A postcard is not a veil that hides its content like a letter, but proudly announces its significance for all to see.

It is one of the few things left that requires personal interaction; it is the trilogy of sender, delivery and receiver that shares a common union.

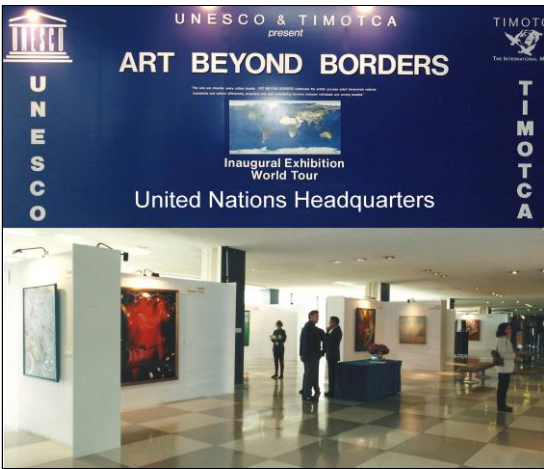

ART BEYOND BORDERS, PostCards From The World premieres the world's largest open art competition and exhibitions. In partnership with **Artsonia** and **Teachers Discovery** hundreds of thousands of teachers and students around the globe will be invited to share “**My Dream of Peace**” by creating and entering small original works of art on postcards, with the option to upload images, if time and funds for postage are limited.

PostCards From the World will give students a voice in a world they will define and provide a platform to showcase our kindred spirit and creative connection.

**His Holiness the Dalai Lama
And TIMOTCA Director Vlasta Livi**

Art Beyond Borders, PostCards From The World is a project of TIMOTCA, The International Museum of Twenty-first Century Arts. TIMOTCA is a nonprofit corporation founded in 1980 to foster peace and cultural understanding through the universal language of art and to build the world's first global Peace Monument and Cultural Center presenting the visual and performing arts of every country on earth.

Two hundred and fifty countries have been identified for participation and to date, over 60 countries have accepted TIMOTCA's invitation, having officially chosen their most celebrated artists for the TIMOTCA Nomination Document. Traveling the world, TIMOTCA Co-Founders have met with the master artists who have been selected to represent their respective countries. Each artist contributed an original work of art for TIMOTCA's permanent collection "*Art Beyond Borders*."

Organized as an exhibition, Art Beyond Borders premiered at United Nations Headquarters under the sponsorship of UNESCO, and has been exhibited at UNESCO Headquarters in Paris and at venues across America, providing a platform to showcase our common creative spirit and quest for peace.

During the years, TIMOTCA has created many programs to reach out to children with the message of Art Beyond Borders in hundreds of schools and public venues receiving high praise from Governors, Mayors, teachers and visitors across the US. Now, with ***PostCards From The World*** we reach out across the globe.
